Houston, TX 77092

Summer 2026 Schedule (Subject to Change)

Construction & Maintenance Education Foundation

Course	Start	End	Days	Co-Pays
Construction Site Safety Technician (CSST) (12 Wks) *Books Included*	5/4/26	7/22/26	Mon. & Wed.	ABC/TCA Member-\$1,000 Non-ABC Member-\$1,200

This program offers comprehensive coverage of safety subjects and industry best practices that act as catalysts for safety culture improvements. Designed to instill a safety-first philosophy across all levels of an organization, from entry-level to management. This comprehensive, standardized program covers both the field and administrative aspects of construction safety.

Crew Leadership (2 Weeks)	5/4/26	5/13/26	Mon. & Wed.	ABC/TCA Member-\$250 Non-ABC Member-\$300
-------------------------------------	--------	---------	-------------	--

This title provides training on effective leadership skills and practical leadership applications, such as scheduling, workface planning, field reporting, and resource control. It also introduces learners to critical modern leadership skills, such as managing diverse crews, addressing performance issues, and resolving conflict. Ensure leaders and their crews contribute safely and productively to active projects.

Project Supervision (10 Weeks)	5/18/26	7/22/26	Mon. & Wed.	TCA 1&2-\$295 ABC Member-\$550 Non-Member-\$800
--	---------	---------	-------------	---

An important leadership curriculum that gives both experienced and new field managers a step-by-step approach to honing their abilities, developing essential skills and improving their performance as leaders. This one-level curriculum covers topics such as human relations and problem solving, safety, planning, estimating, safety supervision, scheduling, controlling costs and resources, and managing people.

ALL CLASSES ARE FROM 6PM - 10PM
